Fruitology®

100% mandarin puree

Ingredient: mandarin 100%

Origins

The mandarin is one of the oldest citrus fruit, coming from Asia. 'Les vergers Boiron' has selected two Sicilian varieties: the Tardivo di Ciaculli and the Avana. Mandarin trees prefer well-drained soil and a mild climate, and are grown in terraces at the foot of the hills. Their fruit is picked in winter. 'Les vergers Boiron' make a finely calibrated extraction in order to obtain a sweeter juice, less rich in essential oils and therefore in bitterness.

Colour

'Les vergers Boiron' mandarin puree is a pulpy pale-orange juice.

Taste

The choice of fruit picked when fully mature and the care taken in pressing it result in juice that has a good balance between sweet, sour and bitter flavours. The essential oils present in the flesh and rind of the fruit provide 'zesty' notes.

Pairing suggestions

Chestnut and vanilla, pink grapefruit, butternut, mango, jasmine, dark chocolate.
